LEB & RAYES, PLIC

In the Specification

Please replace the text appearing on page 7, lines 11-13 with the following:

Figs 31-3637 graphically illustrate various matrix switch programming grid states at select points in generating and configuring the matrix switch to implement the media processing of Fig. 29.

On page 7, please add the following text starting at line 21:

Fig. 40 is a block diagram of a system that can be utilized, in accordance with one embodiment, to impart to objects that support only static properties, characteristics that enable them to behave in a way that appears as if they support dynamic properties.

Fig. 41 illustrates an example in accordance with one embodiment.

Fig. 42 is a flow diagram that describes steps in a method in accordance with one embodiment.

Fig. 43 illustrates a matrix switch in accordance with one embodiment.
